Planning the perfect fit for your event

With our commitment to customized event planning, we put great care in organizing tasteful music selections, specialized arrangements, and dance party concepts that really bring your event to life. From Sinatra to Santana, we offer balanced mix of today's latest, and classics spanning the last five decades, including swing/jazz, R&B, Motown, Rock, Funk, Disco, Salsa, ballads, contemporary pop. With our insight, experience, and preparation, we make sure all the important music and production details planned for your **important special event** are executed perfectly.

Dance party by design

Our group prepares well balanced song medleys that seamlessly segue from one song to another, and are designed to pack your dance floor with dramatic **momentum** - the best DJ's do this - we do it live. Also, we like to plan music and dance party concepts that makes the event special and distinctive.
